

Ammeters

YOKINS is a leading **Ammeter manufacturer**, **Ammeter supplier** and **Ammeter exporter** in India. We manufacture a wide range of high-quality Analog Ammeters for measuring AC and DC current. Our Analog Ampere meters are manufactured with the finest raw materials for unparalleled performance and long-lasting durable design which ensures that our clients get best value for what they spend.

YOKINS Ammeters are available in DC moving coil permanent magnet type, AC moving iron type and AC moving coil rectifier type. We manufacture Ammeters in various sizes and models for different requirements. Our Analog Ammeters are available in standard flush mounting DIN sizes (48/72/96/144), Rectangular models, Round meters, Educational portable and table top type meters. For meter housing we use finest ABS and polycarbonate material in fire retardant grade.

Our Ammeters are available in a wide range from 50 μ A – 100A direct and upto 15 kilo Ampere through CT or shunt.

AC Moving Iron Ammeters

Range : Current (A) : 0 - 1A to 0 - 100A (Direct), Through CT/1A or /5A for Higher Currents and suppressed scale meters with ratio of maximum 1:6.

DC Moving coil Ammeters

Current μ A : 50 μ A to 750 μ A .

Current mA : 1mA to 750mA.

Current A : 1A to 30A (Direct), Through External Shunt /75mV, /50mV or /60mV for Higher Currents.

AC Moving coil rectifier Ammeters

Current μ A : 100 μ A to 750 μ A

Current mA : 1mA to 750mA

Current A : 1A to 5A (Direct), Through CT/1A or /5A for Higher Current

We can manufacture above meters in all our models as per our dimensional sheet [\(Link of Dimensional sheet for analog meters\)](#)

Besides them we have wide variety of digital ammeters, which you can check in our digital Panel meter section
