

## **PNP Proximity sensor**

We manufacture PNP type proximity sensors in 12mm and 18mm

### **Model: PS-M12-PNP-NO-6-36VDC**

- Supply: 6-36V DC
- OD: 12 mm
- Sensing: 4 mm
- Maximum Load: < 300 mA
- PNP-NO type
- High repeated positioning accuracy
- 3 core cable
- 2 mtr wire length

### **Model : PS-M18-PNP-NO-6-40VDC**

- Supply: 6-40V DC
- OD: 18 mm
- Sensing: 8 mm
- Maximum Load: < 300 mA
- PNP-NO type
- High repeated positioning accuracy
- 3 core cable
- 1 mtr wire length

## **Advantages of our Proximity Sensor**

- Antivibration
- Dust, water and oil prevention
- Reverse power protection, short circuit protection,
- Can be directly connected with PLC
- Can replace small switches and limit switches
- Line up with 3 wire output models
