

## Voltmeters

YOKINS is a leading **Voltmeter manufacturer, Voltmeter supplier** and **Voltmeter exporter** in India. We manufacture a wide range of high-quality Analog Voltmeters for measuring AC and DC voltages. Our Analog Volt Meters are manufactured with the finest raw materials for unparalleled performance and long-lasting durable design which ensures that our clients get best value for what they spend.

YOKINS voltmeters are available in DC moving coil permanent magnet type, AC moving iron type and AC moving coil rectifier type. We manufacture voltmeters in various sizes and models for different requirements. Our Analog voltmeters are available in standard flush mounting DIN sizes (48/72/96/144), Rectangular models, Round meters, Educational portable and table top type meters. For meter housing we use finest ABS and polycarbonate material in fire retardant grade.

Our voltmeters are available in a wide range

### AC Moving Iron Voltmeters

**Voltage (V) :** 0 - 10V to 0 - 750V (Direct), Through PT for Higher Voltages.

### DC Moving coil voltmeters

**Voltage mV :** 50mV to 1000mV.

**Voltage V :** 1V to 1000V.

## AC Moving coil rectifier Voltmeters

**Voltage V** : 10V to 1000V(Direct) Through PT for Higher Voltages.

We can manufacture above meters in all our models as per our dimensional sheet [\(Link of Dimensional sheet for analog meters\)](#)

Besides them we have wide variety of digital voltmeters, which you can check in our digital Panel meter section
